

Canopy Tour: Zip Lines and Bridges Above the Gorge

DURATION**2 Hours****FROM****USD 81 per person****MINIMUM****2 travellers**

A linked circuit of short zip lines, aerial walkways and suspension bridges strung through the gorge rim forest above the Zambezi. A guided aerial route rather than a single adrenaline hit, and it works well for mixed-age groups.

Itinerary

1**Brief and equipment***Zimbabwe*

Harness, helmet and a double-clip lanyard system, which is what lets you move between platforms safely. Guides explain the clip discipline, because on a canopy circuit you move yourself between anchor points rather than being clipped on once.

2**Into the canopy***Zimbabwe*

The first slides are short and low, deliberately, so everyone gets the hang of the trolley and the braking before the circuit opens out towards the gorge rim.

3**Bridges and the gorge edge***Zimbabwe*

The route alternates between zip lines and suspended walkways through the forest canopy, with the gorge opening up on one side and the Zambezi visible below. Guides stop at viewpoints and talk through the geology and the birdlife.

4**Final slides and return***Zimbabwe*

The circuit closes with the longest slides of the course, then a short walk back to base. Suitable for families and for anyone who wants height and views without a freefall.

What's included

- Guides
- Safety gear

Not included

- Photos
- Gratuities
- Transfers

What to bring

- Moderate fitness
