FOCUS TRAVEL & TOURS

Batoka Gorge Zip Line: Across the Zambezi Gorge

DURATION	FROM	MINIMUM
1 Hour	**USD 108 per person**	**3 travellers**

A fast cable run straight out across the Batoka Gorge, with the Zambezi below and the gorge walls either side. Less commitment than the swing or the bungee, and still one of the best views you will get of the river.

Itinerary

1. ### Harness and line check
   Zimbabwe

   You are fitted with a harness and helmet, and the crew check the trolley and both attachment points before you reach the launch. The brief covers body position and braking, which on this line the crew handle at the far end.

2. ### Launch
   Zimbabwe

   The launch point sits on the gorge rim. You step off a short platform and the line takes your weight immediately, so there is no drop phase. This is the one to pick if you want the gorge and the speed without the freefall.

3. ### The crossing
   Zimbabwe

   A sustained run out across the gorge at speed, high above the Zambezi, with the rock walls moving past on both sides. Hands free for most of the crossing, so it is the easiest of the gorge activities to actually look around during.

4. ### Arrival and return
   Zimbabwe

   You are braked and brought in at the far anchor, unclipped, and walked back. A tandem version runs on the same line and is booked separately if you would rather ride it side by side.

What's included

- Safety gear
- Instructors

Not included

- Photos
- Gratuities
- Park fees
- Transport

What to bring

- Moderate fitness
